

(化学工学棟 1 階ロビー奥の掲示版)

明日につながる素材をつくり
化学の力で未来を守る

The image is a composite. The background is a large green leaf. Overlaid on the leaf is a laboratory flask containing a blue liquid. In the bottom right corner, there is a chemical structure of a complex organic molecule, which appears to be a derivative of a purine or pyrimidine base, with various functional groups including hydroxyl, amino, and silyl groups. The chemical structure is drawn in white lines.
